REASONS FOR ALLOWANCE

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 8-11 been renumbered 7-10.

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a full color display and photocell device, comprising: a liquid crystal display; a transparent panel light behind the LCD that can emit a monochromatic light beam; and a photovoltaic cell behind the transparent panel light that converts light energy emanating from the transparent panel light into electrical energy. The prior art of record does not teach in combination with the limitations supra, a transparent panel light behind the LCD that can emit a monochromatic light beam having a selected one of three colors. The prior art light source capabilities are limited to a single color production.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.
